introduction 🐾

At The Barkery, we unite our love for dogs with the joy of gourmet treats. Our mission is to enrich the bond between pets and their owners by offering premium, handcrafted pastries that delight both. This brand manual embodies our commitment to quality and companionship, guiding how we share our story of care, joy, and indulgence in every treat. It is our blueprint for spreading love and memorable moments in the pet community by ensuring our core values are reflected in every aspect of The Barkery.

the logo 🐾 primary logo

The “The Barkery” logo captures the essence of the brand’s friendly and approachable nature. The logo features a cheerful Corgi with a baker’s hat, embodying the brand’s playful spirit. The Corgi is holding a bone, which cleverly incorporates the theme of a bakery that specializes in treats for dogs. The use of a soft, rounded sans-serif font for The Barkery wordmark enhances the welcoming and informal vibe of the brand.

This is the brand’s primary logo, designed to be immediately recognizable. It functions effectively in spaces where the brand’s connection to dog treats is evident, and the brand name is the predominant message to be communicated; this logo is the definitive visual identifier.

the logo

our corgi icon

At the heart of our brand lies a symbol that is as adaptable as is expressive. Our signature icon, an illustrated corgi, is crafted to convey the essence of our brand's commitment to delight, exceptional quality, and the cherished connection between pets and their owners.

The illustration presents a joyful Corgi wearing a chef's hat, with a tongue playfully sticking out, and holding a bone, which together capture the brand's spirit of playfulness and its dedication to serving the finest treats to our beloved four-legged friends. The icon can be utilized on its own, but is most commonly used above our distinctive typography, creating a harmonious identity that is both playful and memorable.

the logo

clear space

Our logo's clear space is not just about boundaries; it's about giving our playful icon the room to wag its tail freely. Defined by "X", this measure of space is inspired by the width of the bone in our icon, serving as a scalable guide for clear space on all sides surrounding our icon, except where the logo extends to the edge of a material.

This thoughtful space ensures that our icon and its cherished bone remain the center of attention, undistracted by the hustle and bustle of its surroundings. Think of "X" as the length of the bone—a reminder to leave enough room around the logo for that joyful tail-wagging space on all sides that aren't designed to bleed off the page. In every use, this guideline helps our logo to stand out, ensuring that the essence of The Barkery is felt with clarity and warmth.

the logo

minimum size

To ensure our lovable corgi and its sweet treat are always seen at their best, the minimum size for "The Barkery" logo is set at 3/8 inch by 3/8 inch. This guideline preserves the clarity and impact of our brand's heartwarming charm in every display.

unapproved color usage

Barking up the wrong color tree?

Let's keep our pack's visual bark as strong as its bite! Straying from our paw-some primary and secondary colors can lead to a ruff reception from our audience and bury the unique identity we have worked so hard to fetch.

Before you dig into new designs, paws and reflect: is your color choice on the approved list? Unleashing unapproved colors might lead to a tail of woe, including redesigns or the outright rejection of your creative work.

If you find yourself chasing your tail over color choices, take a look at page 12 of the manual to confirm. Together, we can keep our brand's color story paw-perfect!

the barkery

Oops, our logo's turned green! While creativity is a treat, let's save the green for the park, not our pup. Keeping to our approved colors ensures our furry friend best represents The Barkery's true spirit. Remember, a green dog might fetch looks, but the right colors fetch smiles! :)
